

How to Connect To NWICC Wireless Network

1. Right Click on the dual-monitor icon in the right corner of your task bar (circled in white) and select **Connect to a network**.

2. Next select a wireless network to connect to by left clicking on the network (more bars equals greater signal strength) Please note, the wireless networks on campus follow the following naming convention: *AP* followed by a *numeral*. Example: AP0 Then click **Connect**.

3. You should now be connected to the wireless network on campus. If you receive an error message or have issues connecting to a specific wireless network, try the above steps with another wireless network.
