NCC Electrical Program Celebrated Their 40th Anniversary

The Northwest Iowa Community College Electrical Program celebrated their 40th Anniversary Tuesday, February 2, with an open house. Hot dogs, chips and refreshments were served and tours of the Electrical Program's classrooms and labs were also be given.

Byron Krull, Electrical Program Instructor, commented, "All of us associated with the Industrial and Commercial Wiring program greatly appreciate the interest people showed as they attended our 40th anniversary open house on Tuesday. We would like to thank them for coming and showing their support of our program. We are also looking forward to the next 40 years to being as great as the past 40! Thanks."

Dean McCarty, Industrial Electrician Alumnus, '82, stated, "It's been a while since I have back to NCC. Some of the programs have changed and NCC has added a lot of classrooms. I am glad I came tonight. I was able to meet with past instructors and see other electricians I know. I am an Electrical Supervisor at Wells Dairy, LeMars, Iowa, and I feel that NCC prepared me well for my career. The hands on training, labs, theory, all gave me a good all around education. We would learn the theory in the classroom and then physically go into the lab and make the theory a reality in the lab."

Paul Brown, Industrial Electrician Alumnus, '91, said, "I am a Maintenance Technician at Wells Dairy and my education at NCC prepared me for my career. I think NCC has the best instructors. We always competed at the national level and always bucked horns with the big boys. I would defiantly recommend this program to anyone. "

For information on any of NCC's 40 programs or to find out more about NCC's Electrical Program Anniversary Celebration contact the Admissions Office at studentservices@nwicc.edu or call 712-324-5061 or 1-800-352-4907. Or visit our website at www.nwicc.edu.
