Job Title: INSTALLATION TECHNICIAN

Description:

Experience:

- Must have experience and comfort working at heights (rooftops, buildings, etc.). (Note: tower climbing is available, but not a requirement of this position)
- Experience on, and familiarity with, typical automotive systems (mechanical and electrical)

Qualifications:

- High school diploma or higher.
- Valid drivers' license with a clear driving record
- Must be able to pass a criminal background check
- Must be able to safely lift and manipulate at least 70lbs
- Must possess a high degree of integrity, responsibility and character.
- Must be able to complete assigned tasks within assigned parameters and time limits, with a high degree of quality and attention to detail.
- High level of flexibility, adaptability to work, people and surroundings
- Ability to operate or learn computer operation pertaining to job function
- Must possess very good mechanical skills
- Knowledge of basic electronics and electricity
- Must be physically fit, able to work inside and outside of vehicles, heavy equipment, buildings as needed.
- Must not have any known medical impairments limiting the above qualifications

Responsibilities:

- Installation, maintenance, optimization and repair of various types of communications equipment at customer facilities
- Installation of mobile radio equipment, cameras, light bars, accessory lights, etc.
- Building wiring as required
- Vehicle wiring of installed items
- Programming (basic level)
- Field/bench service as required

Salary/Benefits: Not given

Application Procedure: Send resume or any questions to: markf@alpha-wireless.com.
