Job Title: DESIGN/CAD ENGINEER

Description: Designs, clear, complete and accurately working products using CAD, rough or detailed sketches, or notes. This position reports to the Design Engineering Manager.

Primary Duties:

- Makes drawings, checking material dimensions and relationship to other parts and to the entire structure or project on the drawing.
- Review development plans for compliance with adopted engineering standards.
- Verifies dimensional accuracy of structural layouts and installations.
- Works with manufacturing, vendors and engineering to ensure documentation meets specifications.

Qualifications:

- Equivalent to a two or four year degree preferred with major course work in an engineering curriculum or a related area of study; or an equivalent combination of education and experience sufficient to successfully perform the essential duties of the job.
- Knowledge of CADKey Revision 19 and Solid Works – 2007 or newer.

Salary/Benefits: Not given.

Application Procedure: Please apply in person or call Human Resources at the phone number listed above.
