<b>Job Title:</b>	TECHNICIAN/MACHINIST	
<b>Description:</b>	European-based company established in 1953; new to the U.S. We're a plastic injection plant with the latest in-mold labeling and thin wall plastic technology. We are looking to hire a full time Technician/Machinist that can be in charge of the delicate and challenging task to maintain our investments in shape through a periodic maintenance program that this person would participate in and help establish. There is no machining involved yet, but the candidate must understand all of the mechanics behind these expensive molds. The candidate must be able to travel outside of the country.	
<b>Salary/Benefits:</b>	Not given.	
<b>Application Procedure:</b>	If you are interested in learning more, please contact Steeve Vallee at the email address or phone number above.
