Job Title: INSTRUMENTATION PROJECT MANAGER

Job Description: **Primary Responsibilities will include:**

- Deliver fanatical – flexible and nimble – customer service with a relationship-building focus.
- Ensure premier, multi-discipline (instrumentation, engineering, and construction) project delivery with a focus on quality, dependability, flexibility, and speed to the market; lead multiple projects.
- Represent Interstates Instrumentation (II) to the client from proposal effort, throughout the project plan, and in post-agreement marketing activities on a regular basis.
- Lead, motivate, coach, and professionally grow the project team members.

Great people for this position will have:

- * Engineering degree or Technical Degree with 2 to 5 years of related experience
- * Good communication (verbal, written, listening) and team work skills
- * A desire to work with great people in a casual, fun, growing company
- * Project management and skills
- * Experience leading a team

Salary/Benefits: \$60,000 - \$80,000/yr

We offer a competitive salary and great benefits, focus on the training and development of our team members, and our business growth will provide you with consistent challenge and career development opportunities.
